Making the difference by enhancing lives through art

Supporting ACE (Registered charity no. 1166886)

ACE stands for Art Care Education and we believe that regardless of age or background, everyone can benefit from creative inspiration in their lives. Our principle aims as a charity are to provide art and creative activity to inspire, empower and enable people to develop and grow.

Art ACE provides a platform for over 120 artists and designer makers, enabling them to showcase their talent and benefit from year round sales. Our retail space is complemented by a stunning exhibition space, presenting a varied and stimulating programme of exhibitions and related events throughout the year.

Care ACE works closely with Health and Social Care professionals and provides enjoyable creative activity sessions designed to increase the happiness and wellbeing of elders in care settings. Our sessions increase social interaction, create a sense of community and introduce new skills.

Education ACE provides a range of associated activities and events alongside our exhibition programme. Whether you want to learn new skills for personal or professional development, or gain further insights into the artists and their working practice, we offer artist talks, workshops and other events.

We are pleased to welcome Friends, Patrons and Sponsors to our growing community. Your contribution provides vital support and ensures the gallery continues to be enjoyed by all as a place for experiencing, creating and connecting.

"In addition to the support for professional artists and makers, ACE encourages all sectors of the community to take part in good quality arts activities through their varied range of practical workshops, talks and presentations."

Pauline Burr Arts Development Officer, South Somerset District Council

"The whole atmosphere at ACEarts is open, welcoming and also informative. Many visitors honestly said they were not great gallery goers but that was changing; they were getting into the habit of checking out all the exhibitions as they were so varied."
